EDUCATION

Purdue University

West Lafayette, IN, USA

Ph.D. in Technology

2023-2027 (Expected)

Advisor: Dr. Yi Gao

Dissertation: A Systematic Framework for Evaluating the U.S. Airports Ground Accessibility
and Temporal Reliability Using Gravity-Based Models

M.S. in Applied Statistics

2024-2026

M.S. in Aviation and Aerospace Management

2021-2023

Graduate Certificate in Geospatial Information Science (GIS)

2024

Beijing Jiaotong University

Beijing, China

B.E. in Traffic and Transportation (Civil Aviation Transportation)

2017-2021

CERCIFICATION & LICENSE

- ✧ Part 107 Remote Pilot Certificate
- ✧ SAS Certified Specialist: Base Programming Using SAS 9.4

PEER-REVIEWED PUBLICATIONS

- ✧ Gao, Y., Dou, Z., Wang, S., & Liu, J. (2026). Factors associated with discrepancies between scheduled and actual flight block times: evidence from US domestic airline operations. *Transportation Research Part A: Policy and Practice*, 213, 105227. <https://doi.org/10.1016/j.tra.2026.105227>

FUNDED PROJECT

- ✧ **[ACRP] Mapping Expansion Potential: A Spatial Survey for the U.S. Airports** *Principal Investigator 2025*
- ✧ **Sponsor:** Airport Cooperative Research Program (ACRP), Transportation Research Board (TRB), National Academies of Sciences, Engineering, and Medicine (NASEM)
Amount: \$12,000
Period: 11/2025 - 07/2026
Tasks:
 - Define project scope, and coordinate with an industry panel (airport authorities/consultants) to gain practitioner feedback and adoption pathways.
 - Building a GIS-based suitability framework integrating land use, environmental constraints, and FAA infrastructure investment indicators.
 - Producing publishable research paper.

RESEARCH EXPERIENCE & PROJECT

- ✧ **The Data Mine, Purdue University** *Graduate Data Science Researcher 2025*
- ✧ **Corporate Partner:** Johnson & Johnson
Project Scope: Collaborated on Foundational Models project for early-phase clinical trials, applying Generative AI (LLMs, GANs, VAEs, Diffusion Models) and predictive modeling (XGBoost). Applied tools including Python, R, and SQL in large-scale biomedical data analysis.
Tasks:
 - Building data pipelines in Python for large, de-identified biomedical datasets; performing feature selection,

cross-validation, and survival analysis.

- Delivering reproducible notebooks, documentation, and technical reports; collaborating with a cross-functional team on review cycles and presentation of findings.

✧ **[ACRP Synthesis 11-03/Topic S01-27] State of Airport Loyalty Programs** *Lead Research Assistant* 2022

✧ **Sponsor:** Airport Cooperative Research Program (ACRP), Transportation Research Board (TRB), National Academies of Sciences, Engineering, and Medicine (NASEM)

Project Scope: Investigating customer loyalty programs in different domains, especially major airports in the US. Providing a comprehensive overview of the current status of airport loyalty programs.

Tasks:

- Conducting systematic literature review and industry scan on airport loyalty practices; compiling comparative tables of program structures and incentives.
- Assisting with survey design and outreach to airports; cleaning and summarizing responses; drafting synthesis sections on trends, gaps, and implementation challenges.
- Supporting figure/table production and citation management; coordinating edits with PI/co-authors to align with TRB/NAS editorial standards.

✧ **[ACRP 01-41] Airport Blockchain Implementation Guidebook** *Graduate Research Assistant* 2022

✧ **Sponsor:** Airport Cooperative Research Program (ACRP), Transportation Research Board (TRB), National Academies of Sciences, Engineering, and Medicine (NASEM)

Project Scope: Collecting and summarizing blockchain and associated technologies implementation in the aviation industry to provide business solutions and operational efficiencies for airport decision-makers and stakeholders.

Tasks:

- Conducting systematic online scan of blockchain use cases in aviation contexts, including identity and credentialing, asset tracking, maintenance records, supply chain, and payments.
- Produced synthesized summaries, decision checklists, and implementation roadmaps.

TEACHING EXPERIENCE

✧ **AT 102 - Aviation Business**, Purdue University *2024 - 2027*

Role: Graduate Course Instructor

- Working as the instructor for this course, class size approximately 70-150 students vary by semester.
- Solely responsible for designing the syllabus, developing and delivering in-person lectures, creating assessments (quizzes and exams) with clear rubrics, and managing all grading.
- Mentoring student groups on their collaborative projects, guiding topic selection, content organization, and presentation design.
- Integrating current industry insights and inviting guest speakers to connect foundational business concepts with practical applications in the aviation sector.

✧ **AT 546 - Aviation Financial Instruments and Operations**, Purdue University *2021*

Role: Graduate Teaching Assistant

- Managed the airline simulation platform back-end (scenario setup, data resets, system checks), recorded and curated simulation data outputs (KPIs such as load factor, CASM/RASM, on-time performance) for instructor dashboards and student debriefs.
- Supported students with technical troubleshooting, analytics tips, and interpretation of simulation results; graded assignments and short reports with rubric-based feedback.

PROFESSIONAL SERVICE & ACTIVITIES

✧ **Reviewer**

– Journal of Air Transport Management (JATM)

– Reliability Engineering & System Safety (RESS)

- Journal of Transport Geography (JTG)
- American Journal of Aerospace Engineering (AJAE)
- International Journal of Aviation, Aeronautics, and Aerospace (IJAAA)
- Collegiate Aviation Review-International (CAR-i)

✧ Professional Affiliation

- American Association of Airport Executives (AAAE)
- American Association of Geographers (AAG)
- Air Transport Research Society (ATRS)
- University Aviation Association (UAA)

INTERNSHIP

- ✧ **China Mining Logistics Holdings Co., Ltd.** *International Logistics Analyst* **2020**
– Assisted with freight forwarding, customs declaration and inspection, filling out, photocopying and binding various documents
- ✧ **Citic-Prudential Fund Management Co., Ltd.** *Financial Data Analyst* **2019**
– Organizing the records of the brokerage roadshow/fund research
– Collecting and analyzing information on the macroeconomy, capital market, and public offering fund
– Cleaning up and processing data

SKILLS

- ✧ Statistical Programming/Markup Languages: R, Python, SAS, SPSS, LATEX
- ✧ Languages: English, Mandarin
- ✧ Applications: Microsoft Office, Tableau, ArcGIS Pro, AutoCAD, VOSviewer, Adobe Creative Suite, Premiere Pro
- ✧ Music: Violin Performing and Teaching, Piano, Orchestra Performing

HONORS & AWARDS

- ✧ Graduate Ross Fellowship, Purdue University **2023-2027**
- ✧ Industry Advisory Board Research Poster Symposium **2022**
- ✧ First Prize for 16th National Competition of Transport Science and Technology for University Student **2021**
- ✧ Purdue Bands & Orchestras Scholarship **2021**
- ✧ China Undergraduate Mathematical Contest in Modeling **2020**

COMMUNITY SERVICES & ACTIVITIES

- ✧ **Aviation Graduate Council (AGC), Purdue University** *Member* **Fall 2022**
– Present for research roundtable
- ✧ **Concert Orchestra, Purdue University** *Concertmaster* **Fall 2022**
– Organize orchestra rehearsals and concerts
– First violin sectional rehearsal leader
– Perform violin solo part
- ✧ **Festival Chorus and Orchestra, Purdue & Ball State University** *Concertmaster* **Summer 2022**
– Organize rehearsals during summer tour to Europe
– Perform violin solo part
- ✧ **Philharmonic Orchestra, Purdue University** *Associate Concertmaster* **2021**
– Perform part of the violin solo works
- ✧ **Suzuki Association of the Americas** *Registered Suzuki Violin Teacher* **2022**
– Core unites training
